

Test Execution Report

Online Book Store System

Project: Online Bookstore QA | Test Run: Sprint 1 Regression & Smoke Cycle - Execution | Tool: Testworthy | Generated by: Mohammad Soban | Date: 30 July 2026

Execution Summary

Total Test Cases	Passed	Failed	Blocked	Pass Rate
24	19	3	2	79.2%

Detailed Results

ID	Scenario	Suite / Section	Priority	Type	Status	Notes
TC-001	Verify user registration with valid details	Authentication / Registration	High	Smoke	Passed	-
TC-002	Verify registration with an already registered email	Authentication / Registration	Medium	Negative	Passed	-
TC-003	Verify registration with weak/invalid password	Authentication / Registration	Medium	Negative	Passed	-
TC-004	Verify login with valid credentials	Authentication / Login	High	Smoke	Passed	-
TC-005	Verify login with invalid password	Authentication / Login	High	Negative	Passed	-
TC-006	Verify login with unregistered email	Authentication / Login	Medium	Negative	Passed	-
TC-007	Verify password reset via email link	Authentication / Password Reset	Medium	Regression	Blocked	Test email service not configured in staging
TC-008	Verify browsing book catalog by category	Catalog & Search / Browsing	High	Smoke	Passed	-

ID	Scenario	Suite / Section	Priority	Type	Status	Notes
TC-009	Verify search by book title returns correct results	Catalog & Search / Search	High	Smoke	Passed	-
TC-010	Verify search by author name	Catalog & Search / Search	Medium	Regression	Passed	-
TC-011	Verify search with no matching results	Catalog & Search / Search	Medium	Negative	Failed	Blank page shown instead of a 'no results' message
TC-012	Verify viewing book details page	Catalog & Search / Browsing	High	Smoke	Passed	-
TC-013	Verify adding a book to cart	Cart / Add/Remove Items	High	Smoke	Passed	-
TC-014	Verify adding an out-of-stock book to cart	Cart / Add/Remove Items	Medium	Negative	Blocked	Out-of-stock state not yet implemented on staging
TC-015	Verify removing an item from cart	Cart / Add/Remove Items	Medium	Regression	Passed	-
TC-016	Verify updating quantity of an item in cart	Cart / Quantity & Totals	Medium	Regression	Passed	-
TC-017	Verify cart total updates correctly after changes	Cart / Quantity & Totals	Medium	Automation Candidate	Passed	-
TC-018	Verify checkout with valid shipping and payment details	Checkout & Orders / Checkout Process	High	Smoke	Passed	-
TC-019	Verify checkout with invalid/expired card	Checkout & Orders / Checkout Process	High	Negative	Failed	Generic 'error occurred' message shown instead of a specific card error
TC-020	Verify order confirmation email is sent after purchase	Checkout & Orders / Order Confirmation & History	Medium	Regression	Passed	-
TC-021	Verify viewing order history	Checkout & Orders / Order Confirmation & History	Medium	Regression	Passed	-
TC-022	Verify cart persists across sessions for logged-in user	Account Management / Session & Performance	Low	Automation Candidate	Passed	-
TC-023	Verify page load time for catalog page	Account Management / Session & Performance	Medium	Automation Candidate	Failed	Observed ~3.4s load time on staging (target is 2s per NFR-01)
TC-024	Verify checkout is blocked when cart is empty	Checkout & Orders / Checkout Process	Medium	Negative	Passed	-

Observations

Two cases are Blocked pending environment/feature readiness: TC-007 (password reset) due to email service not being configured in staging, and TC-014 (out-of-stock handling) as the feature is not yet implemented. Three cases Failed: TC-011 (empty search state shows a blank page instead of a 'no results' message), TC-019 (invalid card submission returns a generic error rather than a specific one), and TC-023 (catalog page load measured at ~3.4s on staging, exceeding the 2-second target defined in NFR-01). All five items have been logged with defect references (BUG-001 to BUG-005) for follow-up in the next cycle.
